

NEW!

Introducing New Generation Low Friction MultiFlo!

RUBBER AIRSEEDER HOSE

At Adelaide Belt & Hose we are always looking at ways to make your hose perform better in the field.

That's why we now have our own low friction hose range.

This new product offers Aussie farmers the advantages of rubber plus the added advantage of less friction through your lines.

MULTIFLO

Suitable for primary and secondary Airseeder applications. A high quality wire reinforced rubber hose featuring 'low friction' tube, excellent flexibility and abrasion resistance.
