## XDV® Xtra Duty (V-Belts)

- **SHOCK RESISTANT ARAMID CORD**
- **SPECIALLY DESIGNED CLUTCHING FABRIC**
- **UNIQUE BLUE COVER**
- **ENGINEERED FOR MAXIMUM LIFE AND PERFORMANCE ON TOUGH LAWN AND GARDEN APPLICATIONS**

Carlisle XDV V-Belts represent the pinnacle for premium FHP applications and provide exceptional service in the harshest environments. They're durable — even when subjected to temperature extremes, high humidity, moisture, grit, oil and grease. You can count on longer service life. The XDV Belt is designed for tough single belt drives, typical of lawnmowers, garden tillers, snow-blowers, garden tractors, etc. Features of the XDV include a premium base cushion for applications requiring a back-side idler. The cover fabric is designed specifically for optimum performance in clutching drives and the aramid cord protects against shock-loading while providing excellent length stability. The XDV is easily identified by its unique blue color and is backed by the exclusive Carlisle IRON-CLAD guarantee.

# BELT TYPES

Carlisle has long been known for the quality of their belt line backed with unmatched performances in the field. Carlisle have a wider variety of belts than any other manufacturer allowing flexibility in your belt choice.

**Gold Label®  
Cog-Belt CR-FX**  
The Energy Saver! More efficient than ordinary belts. The finest classical V-Belt available.

**Super II™ Combo V-Belt**  
The "Problem Solver" from Carlisle that blows the cover off conventional wrapped belts. For classical and FHP applications. **CR-F**

**Blue Label® Classical V-Belt**  
The finest wrapped belt in the industry

**Double Angle V-Belt**  
Designed for use on serpentine-type driven applications.

**Dry Can Belt**  
The original deep groove construction for demanding textile drives.

**Power-Wedge® Cog-Belt CR-FX**  
Higher HP and longer life for maximum savings. Compact and very efficient operation.

**Blue Label® Power Wedge V-Belt**  
Designed for lower cost, more compact multiple-belt drives.

**RPP™ Panther®**  
Featuring **ULTRA-CORD™** tensile members and **Able™** compound to further enhance its industry leading design. Designed to improve performance and drive life while reducing maintenance and downtime. Clean, quiet operation. Ideal alternative to roller chains.

**RPP™ Plus Synchronous Belt**  
Unique construction can double your present belt life on existing high torque drives. Permits design of considerably smaller, more economical drive packages.

**Dual RPP™ Synchronous**  
The proven value of the RPP profile in dual-sided construction.

**Synchro-Cog® Timing Belt**  
For synchronization of driver speed to driven speed.

**Synchro-Cog® Dual Timing Belt**  
Provides synchronized transfer of power from both top and bottom sides of the belt. Excellent for reverse bend synchronous drives.

**Durapower® Light Duty V-Belt**  
Carlisle's wrapped belt technology makes Durapower a real heavyweight in the light duty v-belt arena.

**XDV® Premium V-Belt**  
Long life on industrial light duty, fractional horsepower drives.

**Gold Label® Cog-Band® CR-FX**  
A unique combination of our energy-saving Cog-Belt and the banded concept.

**Wedge-Band®**  
Power-Wedge Belt in banded design. Eliminates whip and turnover on narrow drives.

**Super Vee-Band® Super Blue Ribbon V-Belt**  
in banded design. Eliminates belt whip and turnover on conventional drives.

**Poly-V**  
Increased horsepower in 2/3 the space required for normal belts.

**Variable Speed Cog-Belt**  
For use with variable pitch pulleys to gain a wide range of driven speeds **CR-FX**

**Cotton Drive™ Belt**  
Designed specifically for inclined cotton cleaning applications and features **ULTRA-CORD** technology

**Wedge-Band Chipper Drive V-Belt**  
Designed specifically for the lumber industry
