

WAJAX or “Forestry” Fittings

Wajax claw type couplings are of the hermaphrodite style of a single size which allows you to interconnect hoses etc with each other without having to worry if you have the correct end in your hand.

They are available in a swage type attachment for 25mm and 38mm hoses.

Corresponding adaptors are available with male & female BSP threads in 3/4”,1” and 1-1/2.
