

## NEW PRODUCT RELEASE

# AUS-32 (AdBlue<sup>®</sup>, D.E.F.) lever drum pump

Macnaught introduces the PNY-01-AB version of our time-tested PNY chemical pump. The -AB version is designed specifically for AUS-32 (AdBlue<sup>®</sup>, D.E.F.), which is a solution of high-purity Urea and De-ionized Water used to reduce emissions in diesel fueled vehicles.

The PNY-01-AB can be used on drums or totes and comes complete with a universal bung adaptor and telescopic suction tube.
